BIS-403

**ELECTRONIC BI-STABLE PULSE RELAY
 with timing switch**

www.fif.com.pl

F&F products are covered by an 24 months warranty from date of purchase

PURPOSE

Electronic bi-stable pulse relays BIS-403 enables the user to actuate lighting or other devices from various locations by means of control buttons in parallel connection.

WIRING DIAGRAM

FUNCTIONING

The receiver is actuated by means of a current pulse triggered by pushing any bell push connected to the relay. The receiver is deactivated by another pulse or after a preset time. Pressing the starting button twice within up to one second turns on continuous lighting mode until another pulse has been sent to deactivate the relay.

ASSEMBLY

1. Turn OFF the power.
2. Put on the relay at under plaster box.
3. Connect the relay with wiring diagram.
4. By knob set to switching OFF delay.

ATTENTION!

The BIS-403 is not compatible with bell pushes equipped with fluorescent lamps.

TECHNICAL DATA

supply	230V AC
current load	<math><10\text{A}</math>
controlling current	<math><1\text{mA}</math>
activation delay	0,1÷0,2sec
switching OFF delay (to set)	1÷12min
power consumption	0,8W
connection	4×DY 1mm ² ; l=10cm
working temperature	-25÷50°C
dimensions	Ø55, h=13mm
fixing	to under plaster box Ø60
