## THREE EASY STEPS TO YOUR SMART HOME

1 You run an app, which searches for devices on its own

2 You design control panels to your liking (size of icons and their placement)

3 You create programs for devices and groups in your own language and save them in your favorite online calendar

PROGRAMMING BASED ON YOUR WEB CALENDAR

Clever Wi-Fi Control System

Fox
WI-FI CONTROL SYSTEM

The easy-to-install and feature-rich wireless home automation system

KEY FEATURES

- Communication via home Wi-Fi network
- Remote access to devices from anywhere in the world via the Polish F&F cloud
- Ability to work autonomously even without a Wi-Fi connection
- Advanced programmable timers based on online calendars (such as Google, Outlook...) and enhanced with astronomical functions
- Easy to use, free mobile app for Android and IOS phones and tablets
- No hidden operating costs and guaranteed long-term product support
- Fully Polish solution focused on security and user privacy protection

RGBW
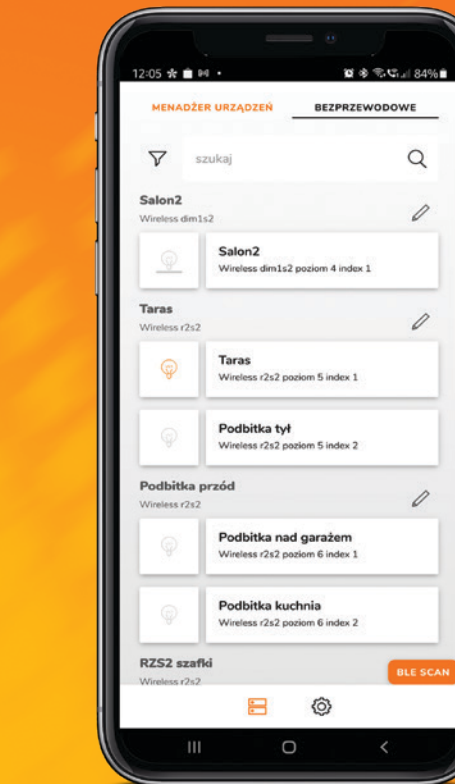

SINGLE SWITCH
SINGLE RELAY

Wi-R1S1P-P

- Single-channel 230 V relay with a load capacity of 16* A
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control also via local push buttons
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box

DOUBLE SWITCH
DOUBLE RELAY

Wi-R2S2-P

- Dual-channel 230 V relay with a load capacity of 5 (8*) A per channel
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control also via local push buttons
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box

GATE
GATE CONTROLLER

Wi-TO2S2

- Designed for integration with any gate drive system
- Ability to control one or two gates or a gate and a wicket
- Control inputs for connecting gate open/close sensors or for local opening of the gate/wicket
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Ability to work autonomously even without a Wi-Fi connection
- Hermetic housing and external antenna for increased operating range

DOUBLE LED
DUAL-CHANNEL 12 V LED CONTROLLER

Wi-LED2S2-P

- Dual-channel 12/24 V LED lighting controller with load capacity of up to 4 A per channel
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control also via local push buttons
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box

SWITCH & ENERGY
SINGLE RELAY WITH NETWORK PARAMETERS MONITORING FUNCTION

Wi-R1S1-P

- Single-channel 230 V relay with a load capacity of 10 (16*) A
- Monitoring of the following network parameters: voltage, current, power, power consumption
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box

SHUTTER
230 V ROLLER SHUTTER CONTROLLER

Wi-STR1S2-P

- Control of a roller shutter with a 230 V motor with a load capacity of up to 320 W
- Slats adjustment function
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control also via local push buttons
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box

DIMMER
230 V DIMMER

Wi-DIM1S1-P

- Brightness control of 230 V light sources up to 150 W
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control also via local push buttons
- Free mobile applications for Android and IOS
- Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- No hidden operating costs and guaranteed long-term product support
- Mounting in the 60 mm installation box

COLOR LED
12 V RGBW CONTROLLER

Wi-RGBW-P

- 12/24 V color (RGBW) LED lighting controller with load capacity of up to 4 A per color
- Communication via home Wi-Fi network and remote access via Polish F&F cloud
- Control of brightness and color via local push buttons
- Free mobile applications for Android and IOS
  Integration with Google voice assistant
- Advanced programmable timers using online calendars, also with astronomical functions
- Ability to work autonomously even without a Wi-Fi connection
- Mounting in the 60 mm installation box
